Salma Wael Mahmoud

Data Analyst/Business Analyst

01064981116 | salmawaelmahmoud0@gmail.com | LinkedIn | Egypt

Professional Summary

Business Information Systems graduate with a strong interest in transforming data into actionable business insights. Experienced in analyzing datasets using SQL and Excel and building interactive dashboards with Power BI to identify trends and support data-driven decision making. Developed a Flutter-based mobile application for stock market analysis as a graduation project, combining technical and analytical skills to solve real-world problems. Passionate about exploring data, identifying trends, and presenting insights that support better business decisions.

Skills

Technical Skills

- Data Analysis: Data Cleaning, Data Manipulation, Data Exploration, Data Interpretation
- Data Visualization: Power BI, Tableau, Dashboard Development, KPI Reporting
- Data Tools: Microsoft Excel (Pivot Tables, VLOOKUP, Conditional Formatting), SQL (SQL Server, MySQL)

Business & Analytical Skills

- Trend Analysis, Business Insights, Data-Driven Decision Making, Reporting & Data Storytelling

Projects

Insight Stock Price Prediction Mobile App – Graduation Project

July 2024

- Developed a Flutter-based mobile application designed to help users explore stock market data and investment insights.
- Integrated Google authentication using Firebase and connected the application to a MySQL database for data storage and management.
- Implemented key features including user registration, login system, subscription plans, and an interactive home interface displaying stock insights.

Sales Performance Dashboard – Power BI Project

March 2026

- Built an interactive Power BI dashboard to analyze sales performance, profitability, and business trends.
- Created KPI cards, line charts, and analytical tables to track sales growth and monitor online sales performance.
- Conducted trend analysis to identify patterns and provide insights that support business decision making.
- Used Power BI AI visual (Key Influencers) to identify drivers impacting profit performance.

BCG Data for Decision Makers – Job Simulation

July 2024

- Completed a consulting simulation focused on analyzing marketing campaign performance for a hypothetical client.
- Analyzed customer conversion trends using simulated datasets to evaluate multi-channel campaign effectiveness.
- Generated insights to support data-driven marketing decisions and improve campaign performance.

Education

Bachelor of Commerce – Business Information Systems Assiut University

GPA: ***3.64 / 4.0 (A+)***

July 2024

Certifications and Courses
